PREFACE

The 1988 edition of *Black Elected Officials: A National Roster* documents the continued growth in the number of blacks in elective office. As of January 1988, there were 6,829 black elected officials (BEOs) in the United States, an increase of 148 (2.2 percent) over the previous year.

The Joint Center began conducting its annual census of BEOs in 1970. Since that time, the number of blacks in this arena of political participation has grown each year. Nevertheless, their number is not yet substantial enough to be regarded as offering black Americans an equitable share of electoral representation. Black Americans make up approximately 11 percent of the U.S. voting-age population, but the 6,829 officials listed in this *Roster* hold fewer than 1.5 percent of all elective offices in the United States. As noted in the conclusion of the overview that follows, demographic, attitudinal, and structural factors continue to restrict both the extent and the rate of future BEO growth. These barriers, and others, operate at every level of the political system and help to explain why the number of blacks serving in the House of Representatives has not grown much faster, why the Senate remains all white, and why there are no black governors. They explain why outstanding black elected officials so quickly reach political dead ends instead of moving on to higher levels of public service.

Black Elected Officials: A National Roster was prepared under the supervision of Dr. Milton Morris, director of research, and under the direction of Dr. Linda F. Williams, associate director of research. Research analyst Theresa Chambliss managed the collection and tabulation of data, which were carried out by project assistant Alfred Baltimore and roster clerk Jay Stewart. Editing and production were supervised by Frank Dexter Brown, associate director of communications/publications. Senior editor Marc DeFrancis and associate editor Constance Toliver edited and proofread the book; Merlinda C. Novicio assisted with word processing. We gratefully acknowledge the valuable contributions of all these staff members.

BLACK ELECTED OFFICIALS IN 1988: AN OVERVIEW

The Joint Center for Political Studies (JCPS) first began compiling data on the number of black elected officials (BEOs) in the United States in 1970. Since then, the number of blacks elected to public office has grown steadily each year. This volume shows that last year was no exception. Between January 1987 and January 1988, the number of black elected officials rose from 6,681 to 6,829 (an increase of 148, or 2.2 percent; see Table 1). Increases occurred in 17 states and the Virgin Islands, and decreases occurred in 16 states and the District of Columbia. No change took place in 17 states.

Fifty-four blacks were elected to positions that blacks had never won before. Forty-four (81 percent) of these ground-breaking elections took place in the South; five (9.3 percent) in the North Central region, and five (9.3 percent) in the Northeast.

Despite these overall gains and the increasing visibility of black elected officials, fewer than 1.5 percent of all elective offices in the United States are held by black Americans, who constitute 11 percent of the nation's total voting-age population (Table 2). Moreover, the growth rate of black elected officials was lower last year than in 1987 (Figure 1). Thus, while the number of blacks in public office in 1988 is higher than ever before, much progress remains to be made.

Geographic Distribution

The geographic distribution of black elected officials clearly parallels the general distribution of the black population throughout the United States (Table 3 and Figure 2). The South contains 52.8 percent of the country's black population and 65.5 percent of all black elected officeholders. The second largest concentration of BEOs, 18.9 percent, is found in the North Central region, where 19.8 percent of the black population lives. The Northeast, with 18.5 percent of the total black population, has 10.2 percent of the BEOs.

State by state comparisons show a similar correlation between the black voting-age population and the number of black elected officials. Mississippi, which has the largest number of BEOs, is the state with the highest proportion of voting-age blacks (30.8 percent of the total electorate). In the District of Columbia, where blacks constitute 66.6 percent of the voting-age population, 65.9 percent of all elected officials are black. Conversely, there still are no black elected officials in Idaho, Montana, and North Dakota, where blacks constitute less than 0.5 percent of the total population in each state (Table 2).

The 10 states with the largest contingents of black elected officials are Mississippi (578 officials), Louisiana (524), Georgia (458), Illinois (443), Alabama (442), North Carolina (428), South Carolina (352), Arkansas (326), Michigan (316), and Texas (300). These states all share two characteristics:

(1) Blacks constitute at least 11 percent of the state's voting-age population.
(2) Women make up more than 12 percent of the state's BEO total.

Female Black Elected Officials

JCPS first began compiling data about female black elected officials in 1975. Since then, their number has more than tripled, growing from 530 to 1,625 in 1987. The growth rate of these female officials has been higher than the rate for all BEOs in each year since 1975 (Table 5 and Figure 3).

The distribution of black female officeholders is similar to that of BEOs as a whole (Table 6). More than half of these female officials serve in the District of Columbia (105) and nine states: Illinois (122), Mississippi (103), California (94), Michigan (93), Alabama (88), New York (88), Georgia (84), South Carolina (80), and Louisiana (73).

Tables 7 and 8 show that since 1975, the gap between male and female BEOs has narrowed. In 1975, there were 5.7 times more men than women among black elected officials. By 1988, there were 3.2 times more men than women. Among both men and women, the largest number hold offices in the municipal category, followed by offices in education (Table 9). However, the third largest number of female BEOs is in judicial offices, whereas the third largest number of male BEOs is in county offices.

Twelve women, already in elective office, were elected to higher positions last year. One notable example is Yvonne B. Miller of Norfolk, Va. Miller became the first black woman elected to the Virginia State House in 1984 and became Virginia's first black female state senator in 1987.

Federal

Blacks hold 23 seats in the U.S. House of Representatives. (District of Columbia Del. Walter Fauntroy, who is included in this number, is among the four nonvoting members of the House.)

The geographic distribution of black congresspersons is unlike that of the majority of all other black officeholders, who are primarily from the South. Only six (or 26.1 percent) of them are from the South, while eight (or 34.8 percent) are from the North Central states of Illinois, Michigan, Missouri, and Ohio. Five are from the Northeast, and four are from the West.

Fourteen members (61 percent) of the entire Congressional Black Caucus (CBC) were elected from majority-black districts. Only two (Ronald Dellums of California and Alan Wheat of Missouri) are from districts where whites compose the vast majority of the voting-age population. The remaining seven members of the CBC are from districts that have large concentrations of both blacks and Hispanics (Table 10).

There have been no black U.S. senators since 1978, when Edward Brooke, a Republican from Massachusetts, left office.

State

The number of black state legislators increased very slightly, from 410 in January 1987 to 413 in January 1988 (Table 11), and the number of black statewide executives remained the same. At the statewide level, there are still seven blacks in office: James Lewis, state treasurer of New Mexico; Francisco Borges, state treasurer of Connecticut; Roland Burris, comptroller of Illinois; Richard Austin, secretary of state of Michigan; L. Douglas Wilder, lieutenant governor of Virginia; and Alexander Farrelly and Derek Hodge, governor and lieutenant governor, respectively, of the Virgin Islands.

Substate Regional

Five regional transit and hospital board officials in California, along with 16 education officials in the Virgin Islands and one conservation district official in North Carolina, make up the total of 22 black holders of elective positions in substate regional government. Generally, the responsibilities of these officials include administering the activities of at least two counties or municipalities and overseeing the provision of services such as transportation, park maintenance, fire protection, education, and recreation.

County

Eighteen blacks (a 2.5 percent increase) were newly elected to county offices, bringing the total to 742. Eighty-three percent of all county-level BEOs are in the South, and of these, 10 were elected to offices which blacks had not previously held.

Municipal

Of all black elected officials, 48.9 percent hold municipal positions. As of January 1988, 3,341 had been sworn into office, up from 3,219 the year before. The largest municipal subgroup is councilmembers (2,621), followed by mayors (301).

The number of blacks who serve as mayors in cities with populations over 50,000 decreased, from 34 to 28 (Table 12). The six who left office are: Harvey Gantt of Charlotte, N.C.; James A. Sharp, Jr. of Flint, Mich.; Jack McLean of Tallahassee, Fl.; Lawrence D. Crawford of Saginaw, Mich.; Samuel A. Thomas of West Palm Beach, Fl.; and James W. Holley III of Portsmouth, Va. Holley was recalled, the other five lost reelection bids, and all were replaced by white officials.

In these cities with populations of 50,000 or more, four black mayors were elected (three by popular vote; one through a special city council election) to offices previously held by blacks. They are: Kurt Schmoke of Baltimore, Md.; Thomas Barnes of Gary, Ind., Carrie S. Perry of Hartford, Conn., and Eugene Sawyer, who was chosen to succeed the late Mayor Harold Washington in a special Chicago city council election.

Judicial and Law Enforcement

There are 738 (up from 728) black elected officials in this category: 689 in judicial offices[1] and 49 in law enforcement offices. Black judges in eight states—Alabama, California, Florida, Maryland, Michigan, Mississippi, North Carolina, and Pennsylvania—preside over state courts of last resort.

Education

Between February 1987 and January 1988, the number of blacks elected to education offices increased by three (less than one percent). The largest subgroup in this category is local school board members, who constitute 95 percent (1,476) of all BEOs in education offices and over 20 percent of the total number of BEOs. Forty-five BEO's hold offices on university and college boards.

There are 14 black elected school superintendents, all of them in the South. Mississippi, Alabama, Florida, and Georgia each have two.

Conclusion

While blacks continued to make progress in winning public office between January 1987 and January 1988, the annual growth rate continued its decline since the mid-1970s. The growth rate was only about half that of the previous year. This declining growth rate may be attributed to a number of factors, including at-large elections and impediments to voter registration. The quest for increased black voter participation, and, in turn, increased black representation, led to several important judicial actions and decisions in 1987. In Danville, Ill., blacks won a voting rights suit challenging at-large elections, which led to the election of two blacks to Danville's city council—the first time a black was elected to that body since the 1920s. In Hamilton County, Ohio, a suit to ensure the election of blacks by changing judicial elections from an at-large to a district system was brought by Ohio State

Rep. William Mallory (D-Cincinnati) and others. As a result, a black woman was elected county judge. In Louisiana, the U.S. Fifth Circuit Court of Appeals, in *Chisholm v. Edwards,* broke down invidious barriers to the selection of black judges when it ruled that the Voting Rights Act may be used to ensure that minority voting strength is not diluted in judicial elections. And in Mississippi, the First District Court, in *Operation PUSH v. Allain,* struck down discriminatory dual-location voter registration statutes and practices which had allowed county clerks to limit the times when registration can take place.

To a considerable extent, future increases in the numbers of black elected officials will depend upon the success of continuing efforts to eliminate all devices and tactics that seek to disfranchise minorities or to dilute their votes.

EXPLANATORY NOTES

The *Roster* is organized by state or territory. Within each of these regions, entries are grouped according to category of office, beginning with federal offices and followed by state and then local offices. Overlapping does occur (e.g., education offices include offices at state, substate regional, county, and municipal levels), but the pattern of overlap is consistent. Individual entries contain the official's name, title, jurisdiction, preferred mailing address, and date on which the term of office expires. Each state section is preceded by a title page that lists basic population data and information on governmental organizations within the state.

This *Roster* contains the names of black elected officials sworn into office prior to February 1, 1988. The term "elected officials" refers mainly to persons elected by popular vote to public office in a governmental capacity.[2] Elective offices are those authorized by the U.S. Constitution, state law, or special provision. Not included are persons elected to leadership positions in political parties (e.g., committee members, district leaders, and ward or precinct captains). In some instances, persons appointed to fill vacancies on elected bodies and persons who eventually face election for retention (e.g., some judges) are included.

Twenty-eight black elected officials hold two offices simultaneously. All offices held by such persons are listed with an asterisk (*) placed beside each entry.[3]

Some individuals are identified as officers of the elective bodies on which they serve. For example, many elected school board members are identified as president, vice-president, secretary, or treasurer of their particular board, despite the fact that they were not elected by voters in this capacity. In all cases where elected officials are identified as officers of elected bodies, the expiration date provided applies to their elective position.

Data Collection. Data for the *Roster* were collected through telephone communications with black elected officials, the government or public bodies on which they serve, organizations or caucuses of black elected officials, and state and local boards of election, as well as through a national newspaper clipping service. In addition, all secretaries of state or state election offices as well as chief state school officers were asked to review, approve or correct certain data contained in the *Roster*.

Total population and total voting-age population figures detailed on each state page are 1984 estimates released by the U.S. Bureau of the Census, the latest data available. Black population and black voting-age population figures are estimates computed by the Joint Center on the basis of data obtained from both the 1970 and the 1980 U.S. Census.

[2] Mayors elected by city councils are also included.

[3] In order to get an accurate count of the number of elective *offices* held by blacks, both offices are counted in the total number of BEOs.

ALASKA

4 Black Elected Officials

POPULATION: The total population of Alaska is 500,000; the black population is 18,000, or 4 percent of the total; total voting age population is 345,000; and the black voting age population is 11,400. The total number of registered voters is 243,000.

FEDERAL: The entire state of Alaska constitutes one congressional district, which is 3 percent black.

STATE: The Alaska legislature is composed of 20 members of the Senate, elected from 14 districts, and 40 members of the House of Representatives, elected from 27 districts. Senators serve 4-year terms; representatives serve 2-year terms. The legislature convenes in Juneau.

COUNTY: Alaska has 8 borough governments. Seven are administered by borough assemblies, which perform functions similar to those of county governments in other states. All areas that lie outside of organized boroughs or city-borough governments constitute a single unorganized borough, which is administered by the state legislature. Depending upon the population size of a borough, between 5 and 11 assembly members serve on a governing board. Most assembly members are elected by district and serve 3-year terms.

MUNICIPAL: There are 142 city governments in Alaska and 699 governing board members. Three city-borough governments—Anchorage, Juneau, and Sitka—are classified as municipalities. Most members of municipal governing bodies serve 3- to 4-year terms.

JUDICIAL AND LAW ENFORCEMENT: There are 64 courts in Alaska and 102 judicial officials—42 judges and 60 magistrates. There are 5 supreme court judges and 21 superior court judges, serving 10- and 6-year terms, respectively. Initially, judges are appointed by the governor to serve a term upon recommendation of the Alaska Judicial Council. After judges' terms expire, they may run for election. No law enforcement officials are elected in Alaska.

SCHOOL DISTRICTS: The Alaska Board of Education governs the educational system. Members of the state board are appointed by the governor and approved by the legislature. Alaska has 55 school districts, each of which has a locally elected board of 5 to 11 members, who serve staggered 3-year terms. School board elections are held every October. In addition, each of the 23 districts in the unorganized borough may have an optional advisory committee. These advisory groups may be appointed or elected within the borough.

SPECIAL DISTRICTS: Alaska has 6 special districts.

CALIFORNIA
286 Black Elected Officials

POPULATION: The total population of California is 25,662,000; the black population is 2,027,298, or 8 percent of the total; total voting age population is 19,063,000; and the black voting age population is 1,430,000. The total number of registered voters is 11,724,000; the number of black registered voters is 941,000.

FEDERAL: California has 45 congressional districts. The districts with the largest percentages of black residents are the Twenty-ninth (Los Angeles-Downey), 51 percent black; the Twenty-eighth (Los Angeles-Inglewood), 37 percent; the Thirty-first (Compton-Carson), 31 percent; and the Eighth (Oakland-Berkeley), 24 percent. Four other districts have black populations of at least 10 percent.

STATE: The California legislature convenes in Sacramento. The 40 members of the Senate and the 80 members of the Assembly are all elected from single-member districts. Senators serve 4-year terms; assembly members serve 2-year terms.

COUNTY: All of California's 58 counties are governed by 5-member boards of supervisors elected by district to 4-year terms, except the city-county of San Francisco, which has an 11-member board of supervisors.

MUNICIPAL: California's 441 municipalities are governed by about 1,884 board members, all elected in nonpartisan elections. Municipalities are designated as cities or towns depending on the size of their populations. The city-county of San Francisco has a consolidated government. Most elections are held every 2 years, in even-numbered years.

JUDICIAL AND LAW ENFORCEMENT: There are 233 courts and 1,383 judgeships in California. Supreme court and court of appeals judges are initially appointed by the governor and confirmed by the Commission on Judicial Appointments. The appointees serve until the earliest gubernatorial election. They are then subject to a nonpartisan retention election for a 12-year term. The 7 supreme court judges and 77 appeals court judges serve

12-year terms. The 687 superior court judges serve 6-year terms. Municipal court judges and justices of the peace are elected on nonpartisan ballots. There are 58 elected sheriffs and 51 elected coroners. Seven county coroners are appointed. Sheriffs and coroners serve 4-year terms. Constables, elected by justice-of-the-peace district, serve 6-year terms. There are also 3 elected commissioners for each police protection district.

SCHOOL DISTRICTS: There are 1,028 school districts with approximately 5,100 school board members. All of these officials are elected to 4-year terms of office.

SPECIAL DISTRICTS: There are 2,506 special districts and authorities.

1 Black Elected Official

POPULATION: The total population of Hawaii is 1,039,000; the black population is 22,026, or 2 percent of the total; total voting age population is 755,000; and the black voting age population is 16,000. The total number of registered voters is 447,000.

FEDERAL: Hawaii has 2 congressional districts. Blacks comprise 2 percent of the population of District Two (Oahu-Outer Islands) and 1 percent of District One (Honolulu).

STATE: There are 25 seats in the Senate; members are elected from 25 districts. The House of Representatives has 51 seats; members are elected from 51 districts. Senators serve 4-year terms; representatives serve 2-year terms. The legislature convenes in Honolulu.

COUNTY: There are 3 counties with organized county governments: Hawaii, Kauai, and Maui. Kalawao County includes the Kalaupapa Settlement and is governed by the state Department of Health. Oahu County, known as the city-county of Honolulu, is classified as a municipality. There are 34 members of county governing bodies (9 councilmembers each from Honolulu, Hawaii, and Maui counties, and 7 from Kauai County), who serve either 2- or 4-year terms, depending upon the county.

MUNICIPAL: The combined city-county of Honolulu is Hawaii's only organized municipality. There are 9 members on the city council. Each member is elected from a separate city council district and serves a 4-year term. In 1980, the Office of Hawaiian Affairs was established to oversee the utilization of and proceeds from lands held in public trust for the Hawaiian people. The office also advocates better conditions for native Hawaiians. A special election is held every 2 years to elect the 9 members of the Board of Trustees of the Office of Hawaiian Affairs. This election is restricted to registered voters of Hawaiian ancestry.

JUDICIAL AND LAW ENFORCEMENT: Hawaii has 61 judicial positions. Five supreme court, 24 circuit court, and 3 intermediate appellate court judges are appointed by the governor for

10-year terms. There are 22 district court judges and 7 district family court judges, who are appointed to 6-year terms by the chief judge of the state supreme court. The prosecuting attorneys of the counties of Hawaii and Kauai and the city-county of Honolulu are the only elected law enforcement officials of the state.

SCHOOL DISTRICTS: All educational services are provided by the state government. The Board of Education is made up of 13 members elected at-large from 2 school board districts—10 members elected at large from the First School Board District (city-county of Honolulu), and 3 members elected at large from the Second School Board District (counties of Hawaii, Maui, and Kauai).

SPECIAL DISTRICTS: There are 15 special districts; only soil and water conservation districts count as governments, however.

The total number of registered voters is 6,282,000; the number of black registered voters is 912,000.

FEDERAL: Illinois has 22 congressional districts. The First and Second districts (South Side Chicago and Lake Calumet Chicago) have the largest black populations, 90 and 66 percent, respectively. Another district with a sizable black population, the Seventh District (West Side Chicago), has a 60 percent black population.

STATE: The General Assembly comprises 59 senators and 118 representatives, elected from single-member districts. Senate members serve staggered terms of 2 or 4 years. House members serve 2-year terms. The General Assembly convenes in Springfield.

COUNTY: There are 102 counties and approximately 1,667 elected board members. Eighty-five counties have organized township governments, and the others are governed by boards of commissioners. The membership of county governing bodies ranges from 3 to 29 officials. Township board members serve 4 years; commission members serve 3 years. Special county provisions require that 10 of the 16 commissioners serving Cook County come from Chicago.

MUNICIPAL: There are 1,279 municipalities and 8,050 governing board members in Illinois. In addition, there are 1,434 townships, each of which is administered by a supervisor and a board of trustees. Elections are usually held every 2 years, in odd-numbered years. The minimum population required for municipal incorporation is 2,500 persons living within 4 square miles. The minimum for village incorporation is 200 persons living within 2 square miles.

JUDICIAL AND LAW ENFORCEMENT: There are 7 supreme court judges, 34 judges serving 5 appellate court districts, and

386 judges and 366 associate judges serving 22 judicial circuits. Judges of the supreme and appellate courts are elected for 10-year terms, judges of the circuit court for 6-year terms, and associate judges of the circuit court for 4-year terms. Judges are first elected to office in partisan elections. Before their terms of office expire, supreme court, appellate court, and circuit court judges who have been elected to office may make declaration to succeed themselves. Retention in office for another term requires an affirmative vote of three-fifths of the electors voting on the question. A separate ballot without party designation is constitutionally required. Illinois has 102 sheriffs and 102 coroners, who serve 4-year terms.

SCHOOL DISTRICTS: There are 997 school districts. All are independent administratively and fiscally. With the exception of Chicago, all school districts are governed by 6,800 school board members elected to 4-year terms. In Chicago, the school board members are appointed by the mayor and serve 5-year terms.

SPECIAL DISTRICTS: There are 2,602 special districts or authorities.

LOUISIANA

524 Black Elected Officials

POPULATION: The total population of Louisiana is 4,462,000; the black population is 1,304,689, or 29 percent of the total; total voting age population is 3,147,000; and the black voting age population is 837,000. The total number of registered voters is 2,304,000; the number of black registered voters is 626,000.

FEDERAL: Louisiana has 8 congressional districts. Five districts have black populations that exceed 20 percent. The two districts with the largest black populations are the Second District (New Orleans-Jefferson), 52 percent, and the Eighth District (Alexandria), 36 percent.

STATE: The Louisiana legislature, which convenes in Baton Rouge, comprises 39 seats in the Senate and 105 seats in the House of Representatives. All members of the House and Senate are elected from single-member districts. Senators and representatives serve 4-year terms.

COUNTY: There are 64 parishes (counties) in Louisiana and about 654 governing body members. In all except 13 parishes, police juries serve as the governing body. Police jury members are elected from districts or wards within the parishes, and serve 4-year terms. The parishes of Caddo, Iberia, Jefferson, Lafourche, Plaquemines, St. Charles, St. James, St. John the Baptist, and St. Mary are governed by councils or commissions. The city of New Orleans and the parish of Orleans are governed jointly by a city council. The city of Baton Rouge and the parish of East Baton Rouge are governed jointly by the metro council. The city of Houma and the parish of Terrebonne are governed jointly by the parish council.

MUNICIPAL: There are 301 municipalities and 1,833 governing board members in Louisiana. The minimum population requirement for incorporation is 300 in most places. Depending on size, incorporated communities are classified as cities, towns, or villages. Most municipalities hold elections every 4 years, in even-numbered years. Some municipalities are governed by a charter, drawn up by the citizens and approved by the voters.

JUDICIAL AND LAW ENFORCEMENT: The 305 judges in Louisiana are elected in non-partisan elections, and terms of office vary among the 98 courts. The 7 supreme court judges and 48 appeals court judges serve 10-year terms. The 240 district court judges serve 6-year terms. The supreme court is the highest court followed by the circuit court of appeals, various district courts, juvenile and family courts, and municipal courts. Each of the 64 parishes elects one sheriff and one coroner, except Orleans Parish, which elects both a civil and criminal sheriff. Sheriffs and coroners serve for 4 years.

SCHOOL DISTRICTS: There are 66 school districts administered by 66 public school boards. The 683 school board members are elected to concurrent 4-year terms.

SPECIAL DISTRICTS: Louisiana has 260 independent special districts. Most special district board members are appointed.

POPULATION: The total population of Massachusetts is 5,798,000; the black population is 244,676, or 4 percent of the total; total voting age population is 4,422,000; and the black voting age population is 164,000. The total number of registered voters is 3,078,000; the number of black registered voters is 105,124.

FEDERAL: Massachusetts has 11 congressional districts. The Ninth District (Boston-Taunton), with a black population of 14 percent, has the largest percentage of black residents.

STATE: The Massachusetts General Court convenes in Boston; it comprises 40 seats in the Senate and 160 seats in the House of Representatives. All legislators represent single-member districts and serve 2-year terms.

COUNTY: There are 14 counties in Massachusetts. With the exceptions of Nantucket and Suffolk, each county is administered by a 3-member board of commissioners and a county finance board. Commissioners are elected within each county. The finance board is comprised of representatives from all cities and towns within a county. Nantucket and Suffolk lack distinctly organized county governments. The area and governing body of Nantucket are identical to that of Nantucket town. Suffolk County is consolidated with the city of Boston.

MUNICIPAL: Massachusetts has 39 municipal and 312 township governments. Three are 450 council members serving on the municipal governing boards and 1,124 selectmen serving on the township boards. Councilmembers generally serve 2-year terms, and selectmen, 1- to 3-year terms. The minimum population requirement for municipal incorporation is 12,000.

JUDICIAL AND LAW ENFORCEMENT: Massachusetts has 91 courts. There are 7 supreme court judges, 10 appeals court judges, and 264 trial court judges. Judges are appointed for life or until they reach 70 years of age. One sheriff is elected for each of the

14 counties, and at least one constable is elected for each city and town.

SCHOOL DISTRICTS: According to state law, 2 or more towns may establish regional school districts. There are 80 such districts, which are administratively and fiscally independent. Of the 80, 53 of these are Academic Regions and the other 27 are Regional Vocations. The other 369 school systems in Massachusetts are considered agencies of town, city, or county governments. The number of school board members varies from board to board, and there is no uniform term of service.

SPECIAL DISTRICTS: Massachusetts has 354 special districts and 1,154 elected board members.

MISSOURI

165 Black Elected Officials

POPULATION: The total population of Missouri is 5,008,000; the black population is 520,832, or 10 percent of the total; total voting age population is 3,682,000; and the black voting age population is 350,000. The total number of registered voters is 2,758,000; the number of black registered voters is 241,000.

FEDERAL: Missouri has 9 congressional districts. The First District, which includes the northern part of St. Louis, is 46 percent black. The Fifth District (Kansas City) is 20 percent black.

STATE: The Missouri General Assembly comprises 34 seats in the Senate and 163 seats in the House of Representatives. All members of the General Assembly are elected from single-member districts. Senators are elected for 4-year terms; representatives for 2-year terms. The General Assembly convenes in Jefferson City.

COUNTY: There are 114 counties and 354 elected governing board members. Most board members are elected by district and serve 2- or 3-year terms. Counties are divided into 4 categories on the basis of their total assessed valuation.

MUNICIPAL: Missouri has 934 municipalities and 325 townships. The minimum population requirement for city incorporation is 500 residents. Villages are incorporated municipalities with less than 500 inhabitants. Cities with more than 5,000 residents may adopt charters for their own government and become constitutional charter cities. Other municipalities are divided into 2 classes. At the time of incorporation third-class municipalities must have 3,000 or more residents. Fourth-class municipalities must have 500 to 3,000 residents. First- and second-class city classifications were abolished in 1975. The municipalities are governed by 5,366 elected councilmembers, aldermen, and trustees. All elections are held during the spring. Terms of office vary among municipalities.

JUDICIAL AND LAW ENFORCEMENT: The 531 courts in Missouri are served by 547 judges. There are 7 supreme court judges, 32 court of appeals judges, and 132 circuit court judges. Judges of the supreme and appellate courts are appointed for 12-year terms. With the exception of circuit court judges in the city of St. Louis and a few counties, all judges are elected on a partisan ballot. In addition, there are 114 elected sheriffs and coroners—one authorized for each county—who serve 4-year terms. One constable is authorized for each magistrate district. One marshal is elected for municipalities with populations of 10,000 to 30,000 in first-class counties, in third-class mayor-council cities, and in fourth-class cities.

SCHOOL DISTRICTS: Missouri has 545 school districts. All are independent administratively and fiscally. There are 3,280 school board members, all elected. Boards generally have 6 members, serving 3-year terms.

SPECIAL DISTRICTS: There are 1,195 special districts and 3,082 elected board members.
